DR. COOK RELATES HIS EXPERIENCES

Dr. Cook Tells of Discovering the North Pole.

PLANTED FLAG ON THE SPOT

Stars and Stripes Now Wave Over the Goal Other Explorers Sought in Vain to Reach—Brooklyn Man Endured Great Hardships Before He Reached His Provision Stores at Etah.

London, Sept. 4.—A special dispatch received here from Skagen says:

"As the steamer Hans Egede steamed by I caught through my glasses a vision of a small man in a dark suit and peaked cap shading his eyes with his hands, as if straining to see the welcome civilization after years in icy exile. It was Dr. Cook, the explorer whose name is on every tongue. He was chatting with the captain on the bridge, now smiling, now waving his hands. I was allowed to board the Hans Egede.

"Somebody gave Dr. Cook a bouquet. Tears dimmed his eyes as he buried his face in their fragrance. 'It's years since I have seen flowers,' said the explorer with a quiver of emotion in his voice.

"I followed him to the cabin. His face was tanned from exposure. He looked the picture of splendid health. Only when he smiled one noticed the loss of two teeth. 'A fight with a polar bear did that,' he said. 'You can tell the world,' the explorer continued, 'that I am in better condition than at any time and look forward with an appetite to the festivities that are promised me. My dinner has been poor these past few years, and I shall have to make up for it.'

"Dr. Cook then briefly described his journey. Regarding his discovery, he said:

The Great Day.

"Then came April 21. That was the great day. We looked for the sun. As soon as we got it I made several observations. Great joy came over us. We were only sixteen miles from the desired spot. I said to myself, 'bully from Frederick. Then we went on.

"The last stretch was the easiest I ever made in my life, although I had still to make two observations and the ice was very broken here. But my spirits were high and I shouted like a boy. The Eskimos looked at one another, surprised at my gaiety. They did not share my joy.

"I felt that I ought to be there. I made my last observation and found that I was standing on the pole.

"My feelings? Well I was too tired really to feel any sensation. I planted the Stars and Stripes in the ice field and my heart grew warm when I saw it wave in the wind.

"How does the North Pole look?" was asked.

"Well," said Dr. Cook smiling, "it amounts to the size of a twenty-five cent piece. There is nothing but ice, ice, no water, but ice. There were more holes here than at the 87th degree, which shows there is more movement and drift here; but this and other observations I made afterwards—when I got more settled. I stopped two days at the pole and I assure you it wasn't easy to say goodbye to the spot.

"As I was sitting at the pole I could not help smiling at the people who on my return would call the whole expedition a humbug. I was sure the people would say that I had bought my two witnesses and that my notebook with my daily observations had been manufactured on board this ship.

Only Word of Eskimos.

"The only thing I can put up against this is what the York Eskimos have told Knud Rasmussen. Let the skeptics who disbelieve my story go to the North Pole. There they will find a small brass tube which I buried under the flag. That tube contains a short statement about my trip. I could not leave my visiting card because I didn't happen to have one with me.

"Perhaps," the explorer added dryly, "I should have stayed there longer had it not begun to freeze us in our idleness. The Eskimos were uneasy and the dogs howled fearfully. Therefore on April 23 I again turned my nose southward, which was much easier, as you cannot turn your nose in any other direction when you stand at the pole."

"Describing the return journey, Dr. Cook said:

"Fortune now smiled. We did twenty miles per day until we reached the ominous 87th degree. I felt the

ice moving eastward carrying us with it. A terrible fog swept around us and kept us for three weeks. We got no further than the 84th degree. Then began a heavy walk toward Helbergstrand and another three weeks of fog. When that cleared I saw we had drifted southwest to Ringnestrand, where we found open water and tower-high screw ice, which stopped our way eastward.

"We now began to suffer hunger. Our provisions were becoming exhausted and we were unable to find our depots. We entered Ringnestrand and on June 20 found the first animals on our return—bear and seal. We shot a bear.

"And now our goal was the whalers at Lancaster sound. We followed the drift ice to the south eight miles a day but were stopped by pack ice in Wellington channel, which was impassable either by boat or sledge. Here was lots of game, but we did not dare shoot it. We had only taken 100 bullets to the Pole and now only fifteen were left. We went into Jones sound after walrus and bear and found open, calm water. We met polar wolves, with which some of our dogs made friends and ran away.

"Now we spent day and night in an open boat ten miles from shore. This lasted two months, while storms often raged over our heads. At last we got ashore again, but we had no fuel and were obliged to eat birds raw. One day we found fuel, and what a feast we had. But we suffered much from hunger during this period. One night a bear came and stole our food. We had many fights with musk oxen which attacked us. Our best weapon against them was the lasso."

The correspondent's story quotes Dr. Cook as saying in conclusion:

"Say that the day we reached our provision stores at Etah was a greater day than April 21. I long to get back to civilization, to move among my fellow men; I long to press my wife to my heart. I am the happiest man living. Tell the world I thank God I am back."

DR. COOK HAS THE PROOF

Explorer Will Submit Data to Prove His Claim.

Copenhagen, Sept. 4.—All Denmark is awaiting the arrival of Dr. Frederick A. Cook. A regal welcome awaits the man whose announcement from Lerwick on Sept. 1, that he had discovered the North Pole, startled the entire civilized world.

The steamer Hans Egede, on which the explorer is returning from the frozen North, has passed Skagen, the Northern extremity of Denmark, and is expected to steam into the sound soon.

Added interest has been lent the occasion by the definite statement of Dr. Cook in an interview of Skagen that he is able to submit data which will prove beyond cavil that he has attained the goal which for centuries had been the objective of explorers. He said he was quite prepared to learn that jealous persons were at work endeavoring to cast doubt upon his work, but that he stood ready to give over his figures for a test by any scientific authority.

REPORT PROVED TO BE FALSE

No Settlement of Pennsylvania Strike at Hand.

Pittsburg, Sept. 4.—For a brief time rumor had it that a settlement of the Pressed Steel Car company strike was at hand. Later, however, it was learned that General Superintendent Rider of the company had agreed to meet the strikers' executive committee individually, but would not consent to receive the committee as a whole. Prospects for an adjustment of the long drawn out trouble were immediately dissipated when the attitude of the company official was made known.

Conditions in the strike district are quiet. More strikers' families moved out of the company houses, and the state troops continued the rigid patrol of the streets.

PRESIDENT CALLS ON MOODY

Visits Sick Member of the Supreme Court.

Haverhill, Mass., Sept. 4.—President William H. Taft made an informal call upon Associate Justice William H. Moody of the United States supreme court at the latter's home here. President Taft, with several other members of the party which had come up from Beverly in an automobile, entered the sick room. It was said that the president found Justice Moody resting comfortably. During the half hour which the call lasted the conversation was limited to greetings, personal subjects, including the justice's illness, and other commonplace matters.

FOUR KILLED AND THIRTY-SIX HURT

Passenger Train Wrecked at Chewton, Pa.

DITCHED BY A BROKEN RAIL

Train Wreckers Blamed for the Accident—Fish Plates and Spikes Removed From Rails—Engine, Two Pullmans and Two Day Coaches Ditched—Several of the Injured May Die.

Pittsburg, Sept. 4.—Four persons were killed and thirty-six others injured, several perhaps fatally, when train No. 5, westbound on the Baltimore and Ohio railroad, known as the Royal Blue Limited, running between New York and Chicago, was wrecked at Chewton, Pa., forty-eight miles from this city. The train ran into a broken rail, supposed to have been caused by train wreckers, and the engine, two Pullmans, and two day coaches were thrown from the track. The cars immediately took fire.

Relief trains were sent to the scene from this city and Newcastle, Pa., and the dead and injured were removed to a hospital at the latter place. The engineer and fireman of the train were killed and two passengers died on the way to the hospital. Among the dead are:

Engineer John Dill of Chicago Junction and Baggage-master John Wheatcroft of Chicago Junction. C. Cavanaugh, boiler inspector, was crushed, probably fatally.

The train was westbound from Pittsburg to Chicago. It was whirling along at fifty miles an hour when the engine suddenly jumped the track and in a second the whole train had turned turtle into a deep ditch.

The railroad officials claim the wreck was caused by fiends who removed two fish plates, moved the north rail inside and removed the spikes for a rail's length. An investigation after the wreck showed that the fish plates and spikes were missing.

AMERICA'S WELCOME TO EXPLORER COOK

May Be Feature of the Hudson-Fulton Celebration.

New York, Sept. 4.—America's welcome to Dr. Frederick A. Cook will be made one of the principal events of the Hudson-Fulton celebration if the explorer can be persuaded to hasten his return so as to reach New York before the end of September. To this end the board of directors of the Explorers' club held a meeting and sent a cablegram urging Dr. Cook to be the guest of honor at the club's Hudson-Fulton dinner on Sept. 30. The message was sent to Copenhagen, to be delivered when the explorer lands there from the Hans Egede. If a favorable reply is received, steps will be taken at once to make Sept. 30 Cook day at the Hudson-Fulton celebration and a substantial sum will be raised to make his arrival home an event corresponding to the unparalleled character of his achievement.

If the plans of the Explorers' club meet with Dr. Cook's approval and the date tentatively selected is appointed for the official welcome, an international character will be lent to the celebration by the presence in New York at that time of several of the most prominent explorers of other countries, who will add their tribute to the official and unofficial ovations of city, state and nation. Among those who have already made plans to be in America at the time of the celebration are Dr. Fridtjof Nansen, whose memorable North Pole expedition of 1903 reached the highest latitude until then attained; Dr. Otto G. Nordenskjold, the Swedish Antarctic explorer and geologist; Captain Roald Amundsen, the hero of the Northwest passage, who is now fitting out a Polar expedition to start early next year; Dr. Stephenson, the Norwegian explorer; and possibly Lieutenant Shackleton, the English naval officer whose explorations in the Antarctic led him to the farthest Southern point ever reached by man.

Charged With Kidnapping.

Topeka, Kan., Sept. 4.—David Gregg, a Topeka lawyer, was arrested on the charge of being one of the principals in the kidnapping of Marian Bleakley, and an accessory to the assault on Clarence Belknap, who defended the little girl. He is in jail without bond.

AMERICAN BOAT IS VICTOR

Wins Fourth Race in International Match.

Marblehead, Mass., Sept. 4.—The fourth international Sonderklasse race for the President Taft and Governor Draper cups was won by the Joyette, owned by Commodore W. H. Childs of the Bensonhurst Yacht club of Brooklyn, in the presence of the president of the United States, the secretary of the navy and a host of onlookers. The president witnessed the contest from the bridge of the United States steam yacht Sylph, and several members of his family were with him.

The Joyette was extremely fortunate to win the race for the Havella, the German challenger, led the fleet of six yachts at the end of the first trip over the windward and leeward course, while the Joyette was an even three minutes behind her in fourth place.

Going out to windward for the second time the Joyette split tacks with the fleet and took a long hitch to the southeast, while the other racers stood in shore on the port tack. Hevelia footed very fast, but Joyette, sailing off by herself, ran into the fresh breeze that her skipper, W. W. Swan, had scented before completing the first round. In a very few minutes it was plain to the onlookers that the Brooklyn boat had worked into the lead. Had one of the German boats followed the request of the committee to chase any American boat that split tactics, the result might have been different.

Joyette's victory gives her two legs on the Taft cup and ties her with the Ellen for the Draper cup. All the boats which have not won a race in the series, Wolf, Sechund II. and Margarethe, are now eliminated from the remaining contests.

CLUE TO LONE TRAIN ROBBER

Furnished by Latest Holdup in Pennsylvania.

Lewistown, Pa., Sept. 4.—A lone highwayman, believed to be the man who robbed the Pennsylvania railroad train near here several nights ago, held up a prominent citizen and his family on a public road not far from the place where the train robbery was committed, and it is believed that the capture of the bandit is a matter of but a few hours. The latest holdup occurred on the same mountain range as the train robbery and more than a half hundred detectives have the mountain surrounded. All roads are under guard and the search for the bandit will be resumed at daybreak.

Cyclone in Sicily.

Catania, Sicily, Sept. 4.—The village of Scordia was almost wiped out by a cyclone. Five persons were killed and fifty injured, ten of whom suffered grave hurts. One hundred houses were completely demolished and many others unroofed. The cyclone was accompanied by a torrential rain.

Descendant of Washington Dead.

Washington, Sept. 4.—Dr. Charles A. Ball, a direct descendant of George Washington and for thirty years a well known physician of this city, is dead here.

GENERAL STRIKE OF MILL OPERATIVES

Twenty Thousand May Quit at New Bedford, Mass.

New Bedford, Mass., Sept. 4.—A general strike of the 20,000 cotton mill operatives in this city is threatened as a result of the refusal of the managers to restore the 10 per cent cut in wages made in March, 1908. At a meeting of the textile council a formal refusal of the mill owners was received.

The delegates to the council had expected that the manufacturers would offer to advance wages 5 per cent, if

not to make a complete restoration, and the letter from the mill treasurers created considerable surprise.

The delegates to the council discussed the wage question at great length and finally it was decided to propose to the Manufacturers' association that the issue be submitted to arbitration before special meetings of the individual unions were called to take action on the refusal to increase wages. There is much unrest in local textile circles and it is the general opinion that the majority of the unions will declare for a strike unless concessions are made.

Launch Cut in Two.

New York, Sept. 4.—Thirty persons, many of them women, were thrown into Sheephead bay by the ramming of the fifty-foot launch Magnolia by the launch Nettie. The Magnolia was cut completely in two, but fortunately the accident occurred so near the shore that there was no loss of life.

WEATHER FORECAST
Partly cloudy, with showers southern portion tonight and Sunday. Decidedly cooler with frosts northwest portion to night.

The Pequot, Pine River and Pillager fairs all have demands on the purses of the people of this vicinity, the state fair to round out with.

An interesting exhibit at the state fair will be the government exhibit on making the American desert habitable. Interesting lectures will be given, illustrated by stereopticon views.

Dr. Cook has discovered the north pole, and trouble seems to have started. Canada and Denmark are both out for the pole pennant, that is, they are said to want their flag nailed to the top of it. The man who had the temerity to hunt the frozen region until he found the thing should be given an absolute deed to the whole region and allowed to plant the flag he wants in the foreground. Anyhow, we saw it first.

The mayors of many northwestern towns have by proclamation announced that the straw hat season is over. The straw seems to be so comfortable and light that the wearers do not seem to know when it is time to give the hat store another lift by purchasing the fall style. It's all over with the straw hat, sure enough, but you can wear it until the snow flies if you want to take issue with the faddist.

If correspondents will remember to sign their names to communications sent in to The Dispatch for publication, they will insure the appearance and save themselves the worry of wondering why they cannot be heard as well as others. The names of correspondents are not wanted for publication in connection with the article, but it is necessary that the publisher know who is responsible for what is said. Often times views are expressed in exact opposition to the policy and ideas of the newspaper itself, and the newspaper must know the author. Don't forget to append your name if it is even a news item you send in—as it is an evidence of good faith that the item is right, while the item without parentage always carries with it the feeling that it is merely guesswork or else someone is being "stung."

Post Office Hours Labor Day
Monday, Sept. 6, is Labor Day, a legal holiday, and the postoffice will observe the following hours: There will be no delivery in the city by carrier, either business or residence, during the day, and the rural carriers will also take advantage of the holiday. The general delivery and carriers' windows will be open in the morning from 8 until 9 o'clock and in the afternoon immediately following the arrival and distribution of the mail from the south. No money order business will be transacted.

There were three "Weary Willies" in municipal court this morning. Joe Johnson plead not guilty to vagrancy and his hearing was set for this afternoon. John Ryan and James Carroll plead guilty to drunkenness and were given \$10 fine or ten days in the city bastille. The sentence was suspended to permit them to get out of town, which they promised to do at once.

Harry Edwards left this morning for Montreal. He says that he goes to meet Dr. Cook, the great explorer at the request of Larry McPherson, to see if there is any good fishing up at the north pole. He says if there is better fishing there than at the dam, Larry wants to know it. There is a lingering suspicion, however, that Mr. Edwards will put in most of his time there visiting at the home of his daughter, and expects to be absent about two weeks.

Mrs. J. A. Spangelo, of Pillager, together with her daughters, Ella, Frances and Florence, the two latter being twin babies, came in this afternoon to attend the confirmation of her two elder daughters, Mabel and Cyrilla, at the Dan-Nor Lutheran church tomorrow. She was also accompanied by her mother, Mrs. U. V. Spangelo, and her sister, Miss Hannah Spangelo, of Twin Valley, Minn. The Misses Mabel and Cyrilla have been staying at the home of Rev. C. Hougstad for a few weeks receiving the instruction preparatory for confirmation. Miss Mabel will enter immediately upon her duties as teacher in a rural school in Cass county, while Miss Cyrilla will re-enter the Pillager schools.

ORDER CASE TO BE TRIED HERE

Paul Fournier, Once Sentenced to Life Imprisonment Gets a Retrial

SENTENCED FROM BELTRAMI CO.

Change of Venue to This County Ordered by Judge W. S. McClenahan

Judge McClenahan, of the 15th judicial district, has just handed down an order granting the motion for a change of venue for the second trial of Paul Fournier, now in jail at Bemidji. Fournier, together with the "Shorty" Westlake, was tried and convicted of the murder of a home-leader named Dahl and his daughter, several years ago. Westlake is now serving a life sentence for his share in the crime. Fournier was also tried, convicted and given a life sentence by former Judge Marshall Spooner, at Bemidji, the crime having been committed in Beltrami county. The supreme court granted Fournier a new trial on the grounds of errors during the trial and misconduct on the part of the county attorney. After the supreme court granted a new trial, the attorneys for Fournier asked a change of venue, and it was granted today. Judge McClenahan designated Crow Wing county as the place for the new trial, and it is expected that it will come on at the regular term of the district court here next December. Judge McClenahan is scheduled to reside at that term of court.

Henry Funkley was county attorney of Beltrami county at the time Fournier's trial and conducted the prosecution. The prosecution of the coming re-trial will devolve, undoubtedly, upon Chester McCulick, the present county attorney of Beltrami county. All expenses of the trial to be held in Crow Wing county will have to be borne by Beltrami county.

S. S. CONVENTION A SUCCESS

Seventh Annual Convention of Crow Wing Workers Just Closed at Ft. Ripley

STRONG PROGRAM PRESENTED

Citizens of Ft. Ripley Entertained Delegates in First Class Shape

The delegates to the seventh annual convention of the Crow Wing county Sunday school association returned yesterday afternoon and reported a very successful meeting. The program prepared was a strong one and it was well carried out. Walter J. Smith, the district worker, and Mr. Pearce, one of the field workers of the state association, were the prominent speakers.

There was a large attendance of lay delegates, besides several pastors from Brainerd, Deerwood and Pequot. The citizens of Ft. Ripley did themselves credit in their efforts to entertain the delegates. The following officers were elected for the ensuing year:

President—Mr. C. Bruhn. Vice President—Mr. Albert Angel. Prem. Sec'y and Treas.—Mrs. Fred Luken. Asst. Sec'y.—Miss Emma Schulz. Agent for S. S. Herald—J. H. Noble.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists 75c. Take Hall's Family Pills for constipation.

CURE FOR ECZEMA

Gives Relief in a Night and Makes Complete Cure in Short Time.

The remarkable demand for Hokara, the skin food, at H. P. Dunn's is not surprising when it is remembered that even in the worst cases of eczema, it stops the itching with the first night's application, begins to heal up the diseased skin almost immediately, and cures chronic cases in a few weeks. In lesser troubles, such as pimples, blackheads, barber's itch, ache, rash, piles, etc., a few days use will usually cure.

In order that no one may be kept from using Hokara by the cost, a liberal sized jar is sold for 25c at H. P. Dunn's drug store. Furthermore, if Hokara does not do all that is claimed for it, even this small sum will be returned.

Death of Albert C. Stees

The Pine River Sentinel conveys the news of the death of Albert C. Stees, an old resident of Allen township in the northern part of the county, which occurred on Friday morning, after a three weeks illness of Bright's disease. The deceased leaves one brother, John Stees, to mourn his death, and the sympathy of his friends will go out to him in this affliction as the two were inseparable and for years made their home under the same roof. Mr. Stees was a bachelor and was 52 years old. Funeral services were held on Saturday, Rev. C. B. Frand, officiating, the Emily M. W. A. having charge, and the interment followed in the Emily cemetery.

They Come Out Boldly

At the opera house Sunday night, Sept. 5th, the residents of this city will have an opportunity of seeing Dr. C. M. Sawyer, the celebrated theosophist and spiritualistic medium. It is claimed that there is no man who has excited more comment and he has been chosen by the adepts to attempt the conclusion of the work left undone by Madam Blavatsky, high priestess of theosophy and mistress of the occult science. Dr. Sawyer's tests are made on a fully lighted stage and delegates from the audience are always invited to investigate. His methods and his work have excited the attention of the most renowned theosophists and has in some measure succeeded in elevating the subject of spiritualism above its popular superstitions. His experiments have met with the endorsement of the Royal Society, of London, England, and of Ionides, the Greek philosopher and many other distinguished persons and societies. The phenomena that will be produced in the light are slate writing, spirit pictures, questions, written and retained by the interrogators, will receive full and intelligent answers.

WOMEN'S WOES

Brainerd Women are Finding Relief at Last

It does seem that women have more than a fair share of the aches and pains that afflict humanity, they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over when to stoop over means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only, that helps and cures the kidneys and is endorsed by people you know.

Mrs. J. H. Zellers, living at 915 Main street, Brainerd, Minn., says: "I just as enthusiastically recommend Doan's Kidney Pills now, as I did several years ago. Prior to that time I suffered a great deal from dull, heavy pains across the small of my back and over the kidney region. There was also a miserable, bearing-down sensation through my loins and I could not stoop without suffering intensely. The secretions from my kidneys plainly showed a derangement of those organs and I was in very poor health. Learning of Doan's Kidney Pills I procured a box from H. P. Dunn's drug store and the results from their use was very satisfactory. I was helped from the first and a continued use resulted in a complete cure. I can recommend Doan's Kidney Pills at the present time even more highly than I did in my previous statement, as no symptom of kidney trouble has since re-appeared.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the U. S. Remember the name—Doan's—and take no other.

What Ails You?
Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion. **Dr. Pierce's Golden Medical Discovery** is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authorities and many others endorsing in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

Twitching of the Nerves

Wonderful cure brought about by DR. A. W. CHASE'S NERVE PILLS

It is only by watching the symptoms of nervous exhaustion and applying restorative treatment that you can ever hope to ward off locomotor ataxia and paralysis.

Mr. J. H. Garrison, North Fairfield, Ohio, Route No. 2, writes: "My health failed me and I became a victim of nervous debility. I was weak, nervous and irritable; my arms and legs would jerk and twitch, and as I was 62 years of age did not expect to benefit much by the use of medicine."

"Great was my surprise, however, when I began using Dr. A. W. Chase's Nerve Pills, for it was not long before my nerves were as steady as clockwork and my system began to build up. I cannot begin to express my appreciation for the benefit. It is the best medicine I ever had in the house."

Such cases as this prove the wonderful efficiency of Dr. A. W. Chase's Nerve Pills. They cure in Nature's way by enriching the blood and for this reason their benefits are lasting. 50 cts. a box, all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Get the genuine.

OWNERSHIP OF POLAR LANDS

Washington Officials Say It Is of Little Consequence.

CLAIM THAT IT IS WORTHLESS

Holds That The Land Discovered by Dr. Cook on His Way to the North Is of No Use to Any Country—Land Discovered by Many Other Explorers Still Remains Unclaimed.

Washington, Sept. 3.—State department officials are of the opinion that it is of little consequence to the United States what lands Dr. Cook has discovered on his way to the North Pole, so far as actual territorial possession is concerned.

It is recalled by the department officials that ever since 1828 American explorers in both the Arctic and Antarctic have discovered vast areas of land to which no claims were ever made. Admiral Wilkes found the Antarctic a territory of more than 100,000 square miles in area, and Dr. Kane made large discoveries in the Arctic, but no effort has ever been made by the United States to assert its right to them. General Greeley some years ago located lands which never before were known to exist.

Many of the world's great navigators, have, from time to time, made their discoveries to which no claim was ever made. The principal reason for this, however, is said to be that these lands in every instance, were almost inaccessible and absolutely of no value.

The islands of Spitzbergen, which were discovered many years ago, are still without a recognized owner. On the maps these islands are designated as belonging to Russia, but her claim, if ever asserted, has never been recognized. These islands are not only accessible but have developed some thriving industries, and only within the past very few years has any effort been made to exercise over them any jurisdiction of authority.

Recently, however, a conference has been suggested of representatives of countries having interests in them to provide some sort of administration for their government. The United States probably will be represented by reason of the fact that the only important coal mines in the territory are operated by Americans.

As to the particular territory which Dr. Cook is said to have discovered the statement was made that it was quite probable that these lands would be found to be an extension of the mainland of Greenland, and if so, they belong to Denmark. At any rate, it is extremely improbable, it is said, that the United States should attempt to assert sovereignty over them.

HANDS HIMSELF IN JAIL

Man Who Shot Senator Somerville Commits Suicide.

New Ulm, Minn., Sept. 3.—John Hayner, who shot and seriously wounded former Senator George W. Somerville at Sleepy Eye, hanged himself in the county jail here and was found swinging dead from the bars of his cell door. Hayner had carefully torn his blanket into strips, fashioning a rope strong enough to bear his weight, and then swung himself into eternity.

Prior to taking his life Hayner, in discussing the shooting of Somerville, declared that he was sitting down in a chair in Somerville's office when he fired the shots at the lawyer and did so because Somerville had risen from his chair and advanced in a threatening manner, holding an office ruler in his hands. It was, he said, to repel this attack, that he fired the shots.

Hayner said that the real estate deal with Somerville, in which he thought he had been cheated, was the exchange of 170 acres of land in Dent county, Mo., for property in Sleepy Eye. He said that Somerville assured him that seventy acres were under the plow and 100 acres well timbered and the value of the land was \$5,000. These representations, Hayner said, were not true and he tried to engage counsel to bring suit against Somerville, but without success.

GERMAN CHALLENGERS WIN

Take the Third of the International Sonder Klasse Races.

Marblehead, Mass., Sept. 3.—In the third of the international Sonder Klasse races the German challenger scored a victory, Captain Otto Protzen steering the Hevella around a triangular course 7 1/2 miles twice sailed, with the same excellent judgment that he displayed three years ago when he won a race here for the Roosevelt cup challengers with the Wannsee. The Maragethe was second while the Seehund II, the other German competitor, finished fourth. The first of the American yachts to finish was the Wolf in third place, but she was badly beaten by both the Hevella and Maragethe. Next came the Ellen and trailing in the rear was the Joyette.

The result was a popular one, because the German yachtsmen have taken two severe beatings this week and everyone sympathized with them somewhat because they swallowed their chagrin without a whimper.

There is no telling what the outcome of the races will be. The Americans have won two races with the Joyette and Ellen, while the Germans have won a leg in the Taft cup contest.

THREE NEW OCEAN RECORDS

Fall to the Lusitania on Her Latest Trip.

New York, Sept. 3.—Three new ocean records fell to the Cunard liner Lusitania on her latest trip from Queenstown. The Lusitania made the passage in 4 days, 11 hours and 45 minutes, thereby clipping 3 hours and 18 minutes from her fastest previous time; she maintained an average speed of 25.85 knots for the entire voyage, beating the Mauretania's record of 25.84; and finally she became the first liner to dock on the fourth day from Queenstown.

The Lusitania and Mauretania heretofore have left Queenstown on Sunday and reached the Ambrose channel lightship too late on Tuesday evening to allow them to dock before Friday morning. Now for the first time, one of them proved herself a "Thursday ship," in the vernacular of the seafarers on board, and thereby became a real four-day boat.

The liner was favored by fair weather for almost the entire voyage.

WILL COLONIZE A BIG TRACT IN MINNESOTA

Project Started by Bishop McGolrick of Duluth.

Duluth, Sept. 3.—For the purpose of colonizing a large Minnesota farming district with desirable persons and establishing Catholic churches and schools, Bishop James McGolrick of this city has closed a deal by which he will control the settlement of 170,000 acres of land in Hubbard and Becker counties, Minnesota. This means that allotting twenty-five acres to a family, nearly 7,000 families can be furnished with small farms in one of the state's best agricultural districts, providing country homes for at least 25,000 persons now living under congested city conditions.

To Chicago, Milwaukee, New York, Boston and the large manufacturing centers of the East, the bishop is sending circulars printed in German, Polish and English, telling the advantage of the plan he has to offer and urging wage earners now struggling for a livelihood in the great East to grasp the opportunity. While it is desired that as many Catholics as possible will seize the opportunity to get close to the soil, there will be no discrimination as to religion and no person of desirable character will be refused an opportunity to share in the advantages the colonies will offer. While the land is owned by a St. Paul land company, the latter will make no sales except upon the recommendation of Bishop McGolrick. The property covers a district about 50 miles in length, reaching from Akeley on the east to Detroit City on the west. Bishop McGolrick has personally inspected it from border to border and says it is one of the richest farming spots he has ever seen.

NEW YORK HERALD'S SCOOP

Had the Only Authorized Version of Dr. Cook's Discovery.

New York, Sept. 3.—The New York Herald made the greatest scoop of recent years when it published Dr. Frederick A. Cook's personal narrative of his journey to the North Pole. The Herald had the only authorized version of the discovery, which was sent to it by Dr. Cook himself. The Associated Press and many other papers used the story sent exclusively to the Herald, but full credit is due to the Herald only, for its enterprise in obtaining the greatest newspaper scoop in many years.

The thrilling story of Dr. Cook, so simply and yet so graphically told, revealing as it does the hardships endured in the successful quest to solve the fascinating mystery that for centuries has lured men to their deaths in the vastness of the frozen North, cost the New York Herald probably \$25,000. This may seem a big price to pay for a story, but the reward of the Herald's enterprise in obtaining this article from Dr. Cook was that it put that paper half a day ahead of every other paper in all the world.

INTENDS TO KILL SOME SNAKES

Secretary of the Interior Declines to Explain the Meaning of His Remark—Says His Department Has Nothing to Fear From the Closest Scrutiny of the Conduct of Its Officials.

Washington, Sept. 4.—"Incidentally," said Secretary Ballinger at the close of the first day after his hurried trip from the Pacific coast, "I intend to kill some snakes."

The remark was made in response to questions relative to the Ballinger-Pinchot controversy regarding water-power plants, the Cunningham Alaskan coal entries and other conservation matters, and the illustration used by the secretary was drawn from an incident in his own life, when some twenty odd years ago as a cowboy at Medicine Lodge he found the camp infested with rattlers. He then said: "Boys, before I sleep, I propose to kill some snakes," and the fact is recorded that he did kill about a dozen of the venomous reptiles before stretching his blanket over the buffalo grass for a night's rest.

Mr. Ballinger refused to explain the purport of his remark and declined to further discuss the matters in controversy between his department and the forestry bureau.

"Manifestly," he said, "it would be improper for me to talk on this subject. The heads of the various divisions of the department which are involved in this controversy have all prepared their reports and I expect to submit the whole question to the president at an early day. I could not, therefore, properly go into the subject at this time further than to say that my previous knowledge of the situation, together with the information I have derived from the perusal of the reports of Messrs. Pierce, Dennett and Schwartz, justifies the statement that this department has nothing to fear from the closest scrutiny of the conduct of its officials."

Confers With Assistants.

Mr. Ballinger said that he did not know just when he would go to Beverly, but presumed that he would be there early next week. He spent much of the day in conference with Assistant Secretary Pierce, Commissioner Dennett, Mr. Schwartz and Assistant Attorney General Lawlor. The remainder of the time was given to the reading of the reports of his subordinates. Mr. Ballinger intimated that he might prepare a report of his own for the public, but said that his course in that respect would depend entirely upon the wishes of the president. He had no doubt, however, that a full statement of the entire matter would be given to the public at an early date.

Secretary Ballinger has been absent from the city for more than two months, the greater part of which time has been spent in a tour of inspection through the West. He gave very careful attention to conditions in Yellowstone Park and went over a large number of irrigation projects and Indian reservations. In order to perform these duties he was compelled to ride much on horseback and on one occasion covered eighty miles in one day while inspecting the Crow Indian reservation in Montana. After seeing the president Mr. Ballinger will return to the West to continue his labors. He probably will join the president at Denver on the latter's Western tour and proceed with him to Seattle.

HAMBURG BELLE IS BEATEN

Uhlan Defeats the Great Mare in Straight Heats.

Readville, Mass., Sept. 4.—Over a track fully two seconds slower than when the great Lou Dillon started the world with a mile in two minutes thereon, the trotting gelding Uhlan defeated Hamburg Belle in straight heats at the Readville track in the second meeting of the pair to decide the trotting championship of the world. As Uhlan is a locally owned and bred horse, the victory was decidedly popular, the crowd of 10,000 cheering at the conclusion of each of the heats and also when the victor returned to the wire for Driver Robert Proctor to weigh in.

Hamburg Belle was favorite before the start at odds of 5 to 3, because of her success last week in the national meeting of the cracks at Cleveland when she earned the world's record of 2:01 1/4 for trotters in a race, two seconds better than the previous mark, which has stood since the Cresceus, The Abbot race at Brighton Beach in 1903.

Will Meet in Rochester.

St. Paul, Sept. 4.—Although the session was one of the stormiest ever held in the history of the National Association of Letter Carriers, it was also a record breaker for business transacted and disposed of. A second ballot to decide on the convention city for 1911 was taken and resulted in a victory for Rochester, N. Y.

MERCHANTS RATIFY TREATY

Business Men of Pacific Coast and Japan Meet.

Seattle, Wash., Sept. 4.—A treaty of peace and reciprocity entered into by the business men of Japan and those of the Pacific coast of the United States was ratified at a banquet given by the Associated Chambers of Commerce of the eight largest cities of the Pacific coast to the representatives of the six great commercial cities of Japan. It is agreed by the contracting parties without signing any papers that they will be friends always; that they will buy merchandise from one another; that they will make, pack and ship the goods in the manner that pleases the purchaser, conforming to the usage of his country.

All the Japanese were present at the banquet. They had passed the day looking through Seattle factories that make goods which Japan needs, but does not produce.

Judge Thomas Burke of this city delivered the address of welcome.

Baron Shibusawa, speaking in Japanese, gave thanks for the friendly reception and assured his hearers of Japan's affection for the United States. Senator Samuel H. Piles proposed the toast "The Empire of Japan," and B. Nakano responded.

T. F. Blaine described the experience of the commission which visited Japan last year. K. Matsuketa, the great shipbuilder of Kobe, was the only Japanese speaker of the night who needed no interpreter. He said that if the merchants of the United States and Japan understood the demands of each country a tremendous increase in exchanges of commodities would result.

KING'S HEALTH IS PERFECT

Edward of England Completes Cure at Marienbad.

Marienbad, Sept. 4.—King Edward, having completed the cure, started by train for London. Dr. Ott pronounced his majesty's health as perfect. He says he was astonished at the robust condition of the British monarch, declaring that his strength is equal to that of a sound man ten years his junior. King Edward has invited Dr. Ott to visit him at Sandringham in November.

ARTICLES OF INCORPORATION

—OF—

THE BERMAFAEL COMPANY.

The undersigned, for the purpose of forming a corporation under Chapter 58 of the Revised Laws of Minnesota, for 1905, and amendments thereto, hereby adopt the following Articles of Incorporation.

I. The name of the Corporation shall be "THE BERMAFAEL COMPANY." II. The general nature of its business shall be buying, selling, leasing and improving lands and tenements, loaning money upon real estate and chattel security, buying and selling notes, mortgages and other chattels, and the principal place of transacting the same shall be in Brainerd, Minnesota.

III. The period of its duration shall be thirty (30) years.

IV. The name of the incorporators are Matilda Hagberg, Arthur Hagberg and Fritz M. Hagberg, all residents of Brainerd, Minnesota.

V. The management of the corporation shall be vested in a board of directors, three in number, who shall be elected by the stockholders at the first annual meeting which shall be held on the first Saturday in January of each year, at ten o'clock in the forenoon, at the head office. Matilda Hagberg, Arthur Hagberg and Fritz M. Hagberg, residents of Brainerd, Minnesota, shall compose the first board of directors and hold their office until the first annual election, and until their successors are elected. Any resolution in writing signed by all the holders of the capital stock of the corporation, as shown by its books, and any resolution in writing, signed by all the directors of the corporation, shall have the same force and effect as if passed and adopted by the stockholders at any regularly called meeting, annual or special, of the stockholders or directors respectively.

VI. The amount of the capital stock shall be Fifty Thousand Dollars (\$50,000), divided into One Thousand shares of Fifty Dollars (\$50.00) par value. Such capital stock may be issued in whole or in part in exchange for real estate or notes secured by mortgage or other securities at fair market value, whether owned by persons interested in the corporation or others.

VII. The highest amount of indebtedness or liability to which the corporation shall be at any time subject shall be Ten Thousand Dollars (\$10,000). No instrument evidencing indebtedness or liability or transferring real estate shall be valid without the signatures of both the President or Vice President and Secretary.

VIII. The officers of the corporation shall be a President, Vice President, Secretary and Treasurer, which latter two offices may be held by the same person, and such other officers as may be provided for in the By-Laws of the Corporation. Arthur Hagberg shall be President, and Matilda Hagberg, Vice President, and Fritz M. Hagberg, Secretary and Treasurer, until their successors are elected and qualify.

In testimony whereof, we have subscribed and acknowledged these presents.

Going Up

One month ago when we advised the purchase of Calumet and Montana through these columns

it was selling at \$1.00 a share. Today it is selling at \$2.50 on the Duluth Stock Exchange. If you took our advice, you now have a nice profit. If you wish to sell now write us: we can give you good executions and excellent service. But our advice is to hold it and buy more. We repeat Calumet and Montana in our opinion is worth \$5.00 a share and we urge our friends to buy it now and at anything under \$5.00. Do not wait until it is selling at \$8.00 and \$10.00 a share. We can give you excellent service on copper stocks and solicit your business.
